

Dear Luzcar Customers,

Please be informed that the Portuguese airport authority ANA (which is currently owned and operated by the private French consortium VINCI) are implementing a charge which will apply to all vehicles collected and returned in the airport car park.

This charge will be effective from 1st March 2015.

The charge will be 15 EUR inclusive of tax and will be collected at the time of pick up by us.

This will applied to every car hire at Faro Airport using Car Park 4 and not just with Luzcar.

The local car hire companies are currently taking legal action against the airport to avoid this fee in the future.

We can only apologize for the short notice given.
